APIs & Architecture: RESTful APIs, MVC Architecture, OOPs

EXPERIENCE

SDE2	Spiral Compute Limited	09/2024 – Present
Wonati studio – AI Content Management Platform		
• Developed a full-stack web application using Laravel 12 & React following MVC architecture, integrating multiple AI APIs (OpenAI, Grok, Claude) for automated content generation with real-time chat interface. Built RESTful APIs and responsive UI components. Features multi-platform content publishing (WordPress, Shopify, Wix, HubSpot), Stripe subscription management, JWT authentication with OAuth provider, comprehensive role-based access control using MySQL database.		
Junior Full Stack Developer	Mirrar Innovation Technologies Private	10/2023 – 07/2024
Pmg Play		
• Designed and developed a robust backend admin panel for application administration. This admin panel empowers administrators with comprehensive control over the app's functionality and user management. Created RESTful APIs for user login, registration, search, and listing using Laravel sanctum package. Implemented role-based access control		
Simplisell.in		
• Contributed to a Laravel 10 based e-commerce platform enabling users to create and manage online stores.		

Trainee Software Developer	Techno Exponent(T-Web)	10/2022 – 06/2023
Kenzie-Real Estate		
• Developed a property listing platform with an administrative dashboard for content and listing management using Laravel following MVC architecture. Built features such as blog, service, contact forms pages and CMS-style admin controls.		

EDUCATION

B.TECH in Information Technology	MCKV INSTITUTE OF ENGINEERING	CGPA-8.82	2018 - 2022
